AndreWilkinson

Confucius says "if you choose a job you love you will never work a day in your life". The pursuit of knowledge has always been a passion of mine, between studying the the market for trades to studying social media habits of companies to see who will capture the consumer eyes. Being a Web Developer makes it easier to convey my knowledge in these areas creatively using HTML, CSS, RESTful techniques, MVC and OOP concepts.

P R O J E C T S

Shoe Runners: An archive for sneaker collectors. A Ruby on Rails group project in which I delegate roles among members. Contributed API and Gem research for concept and direction of project. CnJpestmanagment.com built with Ruby on Rails, created a SQL lite database for customer records, bcrypt for the login and registration, utilized gems for image manipulation.
